

14.5' DRYWALL LIFT

- Easily and safely lifts drywall sheets up to a height of 14.5'
- Chain-driven, coupled with a manual winch and input torque limiter, which keeps the operator safe and prevents damage to the lift from overload
- This commercial-grade, heavy-duty, chain-driven lift is designed for the serious professional, making this lift the safest, longest-lasting lift on the market
- Never worry about replacing cable sheaves or cables due to the heavy-duty, chain-driven lifting mechanism
