

FLOORING INSTALLATION TOOLS

Tapping Block

- Used to tightly install plank flooring without causing damage
- Durable plastic body
- 7" x 2½" x ¾" (178mm x 64mm x 19mm)

Pull Bar

- Used to install plank flooring against walls and other tight areas
- Felt backing protects flooring from scratches
- 12" long (305mm)

Wall Spacers

- Used to maintain an expansion gap between installed flooring and walls
- Spacers are serrated and lock together at desired thicknesses
- 1¾" x 1⅛" (44mm x 29mm)

Flooring Installation Kit

- Contains 1 tapping block (TB7), 1 pull bar (PB12) and 30 wall spacers
