

# MONSTER PRY BARS

## Two-Headed Monster Pry Bars

- All-steel construction ensures long life
- Features a lighter construction
- 90° head for additional leverage
- Powder-coated finish
- Ideal for any job

Compact and easy to carry!

## Open Angle Monster Pry Bar

- Sharp pry bend offers superior leverage over standard Pry Bars
- Durable all-steel construction
- Powder-coated finish ensures long tool life
- 56" (1422 mm) length

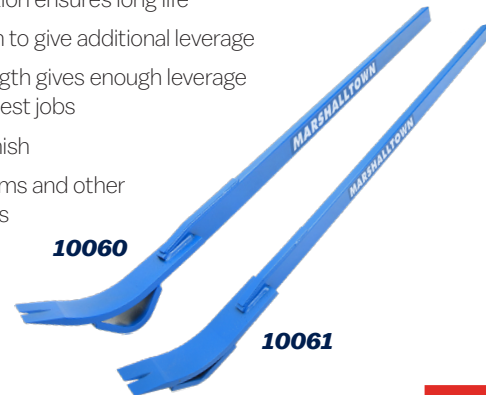

## Little Monster Pry Bar

- Smaller, 46" (1168 mm) size makes it ideal for precision tasks
- Still tough enough to pry loose concrete forms and other embedded objects
- Features a durable all-steel, powder-coated construction

## Fulcrum Monster Pry Bars

- All-steel construction ensures long life
- Features a fulcrum to give additional leverage
- 56" (1422 mm) length gives enough leverage for even the toughest jobs
- Powder-coated finish
- Ideal for prying forms and other embedded objects

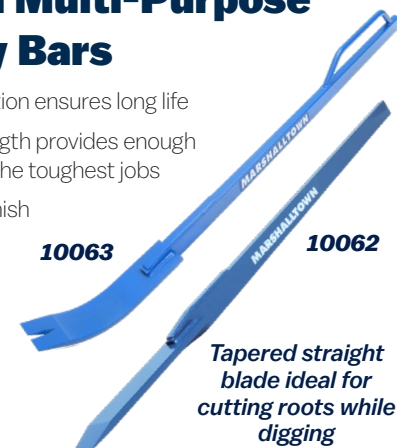

## Monster Pry Bar

- Ideal for prying loose concrete forms and other embedded objects
- Long-lasting, all-steel construction
- Powder-coated finish
- 56" (1422 mm) length

## Handled and Multi-Purpose Monster Pry Bars

- All-steel construction ensures long life
- 56" (1422 mm) length provides enough leverage for even the toughest jobs
- Powder-coated finish

Tapered straight blade ideal for cutting roots while digging
