

EURO NOTCHED TROWEL

Engineered for large format tile

- Wavy notch design ensures improved mortar coverage, transfer, and support for large format tiles
- Maximizes mortar coverage by fully collapsing ridges with minimal side-to-side movement
- Hard tempered steel blade measures 11" x 4½" (279 mm x 114 mm)
- Equipped with a resilient DuraSoft® handle for user comfort

Unique notch design ensures superior coverage

Solid thru-rivets allow for superior hold strength
