

PROSCAPE™

14-GAUGE TRANSFER SHOVEL

- Transfer blade moves loose materials quickly and efficiently; ideal for cleanup tasks, spreading landscaping materials, and clearing debris
- Dual rivet design provides a stronger, more reliable head-to-handle connection
- Deep socket increases leverage for improved power and control
- Extra large forward step with traction enhances stability and allows more force to be used
- Steel core fiberglass handle provides greater rigidity between head and handle
- Durable 14-gauge square blade stands up to demanding tasks
- Overall length of 61½" (1562 mm)

**XL Forward Step with
Traction Features**

Ergonomic Grip

Dual Rivet
