

SHOCKWAVE E40V

POWER SCREED

POWERED BY
Makita XGT
MOTOR SYSTEM

Flexible power options

Makita XGT Motor System includes a cable-pass window for connecting to Makita backpack battery for extended runtime

Less handle vibration vs. gas-powered units

- Engineered to match the vibration output and durability of the gas-powered Shockwave™ 2.0
- Powered by Makita® XGT® MOTOR SYSTEM - gas replacement without emissions
- Makita® Battery System is compatible with 170+ Makita® tools and chargers
- Up to 90 minutes of runtime per battery, fast 76-minute recharge, LED battery status
- 9" hole spacing fits most competitor screed blades
- Less handle vibration vs. gas-powered units for smooth operation and reduced fatigue
- Does not sink into concrete at idle unlike gas-powered equivalents
- Has an adjustable handlebar and bolt-on kickstand
- SWE40V:** bare unit only- battery and charger not included, blade sold separately
- SWE40V-1B:** includes unit, 1 battery and 1 charger, blade sold separately
- SWE40V-2B:** includes unit, 2 batteries and 1 charger, blade sold separately
- Additional Makita® XGT® 40V max 8.0Ah Battery and Makita® XGT® 40V max Rapid Optimum Charger available
- 3-year Makita® Motor and Battery Warranty

3 YEAR WARRANTY
40V MAX LITHIUM-ION MOTOR & BATTERY

Compatible with most competitor screed boards
