

RFX HAND GROOVER

- Built from diecast, hard-anodized aluminum for durability, accuracy, and jobsite performance
- Embedded sight lines and 90° edges provide precise finishing along forms and straight edges
- Features QAS™ Quick Attach System for fast handle changes and positioning
- Allows easy access to drip edges, overhangs, and coping
- Interchangeable blades (fins) can be swapped in seconds
- Available in six common groove sizes for a variety of applications
- Choose between a D-handle or cantilever handle
