

SOFT FACE HAMMERS

- Versatile for many applications such as furniture assembly, soft metal work, automotive work, woodworking, and general maintenance and machinery
- Replaceable tips (soft red and hard yellow) are press fit by design and set in an American forged, heat-treated high carbon steel head
- Provides a softer striking surface that won't damage the workpiece
- Equipped with a quality hickory handle or a solid steel handle with a grip
- Replacement tips available (sold individually)
- Hammers sold 4 per inner pack/4 per outer pack, Replacement Tips sold 1 per inner pack/1 per outer pack
